

Saving the day - in less than 1 hour

SOMETHINGS JUST CAN'T WAIT.

**Like your production line that
needs a new gearbox.**

That's why ERIKS offer a Fast Build Service, on the Fenner range, for when you need a gearbox and you need it fast.

When a gearbox breaks down, it's not just the cost of the replacement you could do without. The cost of lost production due to downtime just adds insult to injury. So the quicker you can get hold of a new gearbox, get it installed and get production back up and running the better.

FAST BUILD. FAST FIT

At ERIKS we keep a vast range of Fenner gearboxes in stock, offering various combinations of power, speed and shaft sizes.

If there isn't the exact gearbox in stock to meet your requirements, it's only a matter of minor tweaking to create a bespoke solution perfect for your needs.

The range includes:

- Up to 12,300Nm capacity
- 11-100mm shaft sizes
- Helical, helical-bevel, helical-worm and worm drives

So when you need a gearbox, and it just can't wait, contact your local ERIKS Service Centre. They'll be waiting for you.
